Zippy 20 tower system

The new **Zippy 20** from **UpRight** is a durable yet lightweight aluminum tower system giving up to 20ft. of working height.

The **Zippy 20** consists of 2 easy to assemble sections :-

- The base section being a one-piece, folding VX base unit that simply folds out and assembles in seconds increasing efficiency and decreasing set up time.

The base section can be used separately as a workstand or trolley to transport tools and materials to the job site.

- The tower section is composed of lightweight aluminum frames, bracing, a platform and toeboards. A guardrail completes the system.

This competitively priced tower system is ideal for contractors, tradesmen and building maintenance requirements.

Meets all applicable OSHA and A.N.S.I. standards.

Specifications	Zippy 20
Max. working height	20ft.
Max. Platform height	14ft.
Width	29in.
Length	79in.
Max. distributed platform capacity	500lbs.

Rib-Grip cold formed joints

The cold-formed Rib-Grip jointing process is a key feature of UpRight's Tower Systems and gives greater strength and durability than traditional welded types.

The base section simply folds out and is ready to use in seconds.

The base section of Zippy 20 can be used for a variety of applications.
